EXAMINER'S AMENDMENT

1. The information disclosure statement filed 12/09/2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. The document by Lieberman et al is missing.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose a method and device for controlling plasma processing in a plasma processing chamber comprising, in combination with the remaining features of the claims, a computing device configured to compute an ion energy distribution function from a first voltage value and peak low frequency RF voltage ($V_{LFRF(PEAK)}$) in accordance with

$$f(E) = (dV_{LF} / dt)^{-1}$$

wherein

$$V_{LF}(t) = [((V_{LFRF(PEAK)} - V_{dc})/2)^{1/2} - ((V_{LFRF(PEAK)} - V_{dc})/8)^{1/2} \sin \omega t]^2$$

$V_{LFRF(PEAK)}$ is peak low frequency RF voltage value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
